

## Tee Cseh Facilities and Inventory

**Setting:** Secluded tent sites, campfire area, covered shelter with lockable storage room. Excellent venue for Pathfinder Gold camps, pre-Soar camps and “Survivor” theme camps. No electricity.

**Sleeping:** 20 people on main sites plus 8 (max) on wilderness sites.

**Facilities:** 5 patrol boxes –*see separate contents list*  
5 tent sites near shelter (*bring own tents*) (1 double site and 3 single sites) with tables.  
4 tarps for kitchen shelters with some rope, poles, pegs and mallets  
Covered shelter with woodstove, 3 burner stove, 2 large picnic tables  
2 outdoor toilets  
Exclusive use of fridge on Si Yay Lum  
1 firepit per tent site plus 1 table and 1 fire pit (double site has only one table)  
Water tap and liquid disposal pit (LDP)

**Site Supplies:** 1 roll plastic for emergency use (*in rafters*)

*Stored in* 2 air horns and 2 fire extinguishers

*locked* 8 long shelter poles (*more in tool shed, bring own rope*)

*shelter* Propane stove and tank (*bring additional stoves and fuel*)

Poles for gadgets (*bring own string*)

Plastic toilet cleaning pail, 1 flip & drip containers, soap dish & rubber gloves.

Canadian flag (*in white plastic container*)

Flagpole pole (*stored under eaves behind woodstove*)

Half barrel and stand with large grill (BBQ) (*outside shelter*)

1 axe & hatchet (*keep in scabbards when not in use*) & wedge (*behind 3 burner stove*).

Red tool tin with pliers, extra mantles, fuel funnel, tacks etc (*on counter*)

1 large water storage container (pot) and 2 bailers. (don't use this on stoves!)

Blackened/old pots for use on fires (*on counter –do not put in patrol boxes*)

(5 Coleman lanterns) –untested this year, 2 with no glass. *bring your own white gas.*

5 brooms plus 2 small brushes & 2 dustpans for tent cleaning

2 old brooms stored in toilets – *for use only in toilets*

Inner screen for LDP (*bring own J cloths*) and lime bin for tiolets

1 grass clipper, 9 mallets, 1 hammer

4 folding chairs

Company cooking supplies: griddle, 2 large pots & 1 lid, 1 large juice jug, large coffee pot, 3 trays, 2 roasting pans, large cookie sheet (*all on counter or in leaders yellow box*).

**Site Supplies:** Green wooden chest containing 4 small grills & assorted bowls for crafts or beach use.

*Stored in rear* 3 red handled blackened washtubs for use on fire pits and 1 ash pot with 2 handles.

*tool shed* 5 large grills for barrel

11 fire buckets

2 buckets large pegs & 1 bucket smaller tent pegs

About 17 shelter poles

1 pick axe, 1 pitchfork, 2 buck saws, 6 rakes

2 long handled shovels & 1 trenching spade.

**Patrol Equipment:** Each patrol box has 2 carry poles and stand, colour coded and containing:

- 3 pots, 2 – 3 lids & 2 pot holders
- Cast iron fry pan (*never wash in water – scrape out and scrub with aluminum foil and salt, then rub on a few drops of cooking oil*)
- Plastic juice jug
- Coffee pot
- 3 mixing bowls
- Measuring jug
- Cookie sheet **or** round cake pan
- 2 plastic cutting boards
- Plastic colander
- 4 each cups, glasses, plates & bowls
- Personal wash basin & 3 dishwashing bowls (all on high shelf above )
- Large bucket with lid for waste “grey” water
- 2 folding containers for clean water  
(*please try to fully empty these and do not lose the lids*)
- Drawer with cooking utensils :
  - 2 small & 1 large serving spoons
  - Measuring spoons,
  - Ladle
  - Flipper
  - Potato masher
  - Egg beater (in most patrol boxes)
  - Whisk
  - Bread knife
  - Paring knife
  - Tongs
  - 2 mixing spoons
  - Can opener
  - Puncture can opener
  - 4 each knives, forks, spoons & teaspoons
  - cheese grater
- Leaders’ box contains extras such as grater, spaghetti server, slotted spoon and carving set.

**Parking:** Space for 1 car on site near gate, others should be parked in parking lot off main driveway near Nawilak

**REMEMBER TO NOTIFY CARETAKER AT LEAST 24 HOURS IN ADVANCE OF YOUR ESTIMATED ARRIVAL TIME AT CAMP**

**Email: [campolave@outlook.com](mailto:campolave@outlook.com)**

## Orientation for Tee Cseh: Checklist for Setting Up at Camp:

1. Check that the fire hose is in its place (*never remove it except in an emergency*); also the fire extinguishers. One sits in the bracket on the shelter support; the other beside the shed door. Place the air horn on the small shelf above the door. **THESE ARE TO BE THE FIRST THINGS TAKEN OUT OF THE SHELTER AND SECURED WHEN A CAMP GOES IN.**
2. If the last camp left the shelter tarps hanging in the shelter to dry, please fold them up, & return them to the top shelf corner above the gadget wood.
3. Take out propane stove and tank and place in shelter away from the wall. Do NOT cook in the lockable storage area. If propane runs out, a small tank is available from the Caretaker.
4. Patrol boxes: chipped or cracked dishes, cups, broken wooden spoons, cutlery etc. that has lost its plating or is rusted, should be disposed of and reported to the Tee Cseh Site manager.
5. Place filled fire buckets (from shed behind shelter) near each tent and fire pit, and also near the cook-shelter.
6. Find inner LDP screen – in shelter or in rafters. Cover the inner screen with J cloths and place inside LDP on top of the coarse screen. You will need to lift the large green cover to do this. Replace cover, then pour waste water through the smaller top opening.
7. Fill “flip & drips” and hang on hooks outside toilets. Obtain more TP from caretaker if needed.
8. Take garbage to dumpster after every meal to deter animals (do not leave garbage in the on-site garbage can overnight).
9. Report any health or safety problems and empty propane tank to Caretaker.

## Checklist for Striking Camp:

1. Dismantle all gadgets, return gadget sticks to storage, remove & dispose of gadget string.
2. Are all areas around the campsite clean and free of refuse? Remove all paper from locker.
3. Sweep shelter including the storage room.
4. Clean the propane stove, disconnect hose from tank, and return it and the tank to locked storage and cover.
5. Fire hose is rolled neatly and in place. Return fire extinguishers & horn to locker **floor** (*not counter*) so that they cannot be stolen if the back shutter is broken into.
6. Unused fire wood is returned to the woodshed to stay dry.
7. Clean brick stove out completely & place ashes in ash bucket. If ashes are cold, spread in the forest. If warm, leave in woodshed for disposal by next camp. Ditto for campfire ashes.
8. Clean the toilets, remove all sanitary waste & close TP lids firmly to discourage rodents & odor. Add one-half cup of lime (in plastic bin around the side of shelter) down each toilet every 2-3 days for long camps, or at end of camp for weekend camps. Fasten lime bin lid securely.
9. Leave Liquid Disposal Pit clean and closed. Remove used J cloth and rinse inner screen. If dry, screen can be stored in shelter. If wet, place in rafters in outer shelter.
10. Remove food from fridge on Si Yay Lum and wipe out shelves (*its easy to forget this*).
11. All shovels, rakes, etc. are in their proper places in the tool shed.
12. Ensure that the water tap is turned off, is not dripping & no soap is left on water tap support.
13. Patrol boxes: All cooking equipment **must** be thoroughly dry and properly stored in patrol boxes. A checklist of patrol box equipment is in each of the boxes’ drawers.  
**A guider should check each patrol box used to make sure it is tidy –photos of how they are organized are in the red counter folder.**
14. **Close and lock shutters, locker door and tool shed door**
15. Return any equipment borrowed from the Camp Olave Caretaker and advise Caretaker if propane tank needs filling..
16. Complete orange comments sheet noting problems and return it and the keys to Caretaker.

**Repacking the storage shed:**

Space is at a premium so put things back where you found them. When packing the shed, the patrol box stands are on the top shelf with the tarps. The boxes are on the bottom shelf. Miscellaneous items are on the middle counter. Put the patrol boxes back into the shelter in the correct colour order so that they will fit! Put the blue one in first. The carrying handles for the patrol boxes are near the yellow box. Many items in the box are colour coded to help you in identifying each piece as patrol equipment.

**Shelter Tarps:**

There are 4 kitchen shelter tarp with ropes attached to each corner. These tarps are NOT to be put on the ground. Any additional ropes added to the tarps should be removed at the end of the camp. The ropes attached to the corners are to remain on the tarps.

If the shelter tarps are wet when you are striking camp, they may be left hanging from ropes in the outside shelter to dry. If dry, they are folded and stored on the upper shelf in the shed above green patrol box.
